

# Compliance Report

**Entity:** intake per division of engineering

**Result:** intake per division of engineering: is greater than the norm.

**Entity:** courses/division of engineering

**Result:** courses/division of engineering: is greater than the norm.

**Entity:** max intake of engineering

**Result:** max intake of engineering: is greater than the norm.

**Entity:** carpet area of tutorial rooms

**Result:** carpet area of tutorial rooms: is less than the norm.

**Entity:** carpet area of laboratory for FE

**Result:** carpet area of laboratory for FE: is less than the norm.

**Entity:** carpet area for CAD centre

**Result:** carpet area for CAD centre: is greater than the norm.

**Entity:** carpet area for seminar hall

**Result:** carpet area for seminar hall: matches the norm.

**Entity:** carpet area for library

**Result:** carpet area for library: matches the norm.

**Entity:** minimum number of pcs required for engineering

**Result:** minimum number of pcs required for engineering : is less than the norm.

**Entity:** number of pcs to student ratio for engineering UG program

**Result:** number of pcs to student ratio for engineering UG program: Data missing or invalid.

**Entity:** Internet bandwidth for approved intake >900

<b>Result:</b>	Internet bandwidth for approved intake >900: Data missing or invalid.
----------------	---

<b>Entity:</b>	Number of library titles for engineering(ug)
----------------	--

<b>Result:</b>	Number of library titles for engineering(ug): is greater than the norm.
----------------	---

<b>Entity:</b>	Number of volumes for engineering(ug)
----------------	---------------------------------------

<b>Result:</b>	Number of volumes for engineering(ug): matches the norm.
----------------	--

<b>Entity:</b>	Capacity of reading room for engineering(ug)
----------------	--

<b>Result:</b>	Capacity of reading room for engineering(ug): matches the norm.
----------------	---

<b>Entity:</b>	Number of multimedia pcs in library for engineering(ug)
----------------	---

<b>Result:</b>	Number of multimedia pcs in library for engineering(ug): matches the norm.
----------------	--

**Summary:**

*Carpet area of tutorial rooms: is less than the norm., carpet area for FE labs: is less than the norm . Minimum number of pcs required for engineering : is less than the minimum number of . pcs needed for engineering .*
